

Get real-time data access with **eego**TM mylab

eego mylab is truly a multi-modal solution by design. Adding additional features to the system is easy and straightforward. Give the research a new dimension by having real-time access to incoming data, used for brain computer interfaces and neurofeedback applications. Get maximum effectiveness with minimal effort!

A few examples of studies done by using real-time data access:

- Long-Term Independent Brain-Computer Interface Home Use Improves Quality of Life of a Patient in the Locked-In State: A Case Study", 2015, Holz et al. A case study. >>
- Effects of training and motivation on auditory P300 brain-computer interface performance >>
- Communication in locked-in state after brainstem stroke: A brain-computer-interface approach >>
- Brain-Computer Interface: Current and Emerging Rehabilitation Applications >>
- Listen, You are Writing! Speeding up Online Spelling with a Dynamic Auditory BCI", 2011, Schreuder et al >>

Buy the SDK license directly with eego mylab and get 10% off the price!*

Normal price

€ 1,000.00

Price directly with **eego** mylab

€ 900.00

*The 10% discount applies to all additional items, options and consumables when purchased directly with an **eego** mylab solution. All mentioned prices in euro, excluding VAT, duties and shipment.
