About ANT Neuromeeting

For more than 25 years the ANT Neuromeeting in Burgundy, France has served as a multi-disciplinary platform for engaging discussions, knowledge-sharing and cross-pollination of insights among many renowned experts in the fields of brain research and diagnostics.

ANT Neuro is honoured to facilitate this meeting on an annual basis. We are eager to contribute to a lively scientific discussion by developing novel solutions that advance research and facilitate breakthroughs which we can all benefit from. In this respect, the ANT Neuromeeting has always been a fertile ground of inspiration for us.

Once again, experts from all over the world will join us in Beaune surrounded by the beautiful Burgundy countryside and French culinary delights, to exchange ideas and contribute to a shared goal of decoding the fascinating activities of the human brain.

Program

During the 3 ½ -day meeting the participants will be able to attend symposia, workshops and equipment demonstrations. This year’s program will be very diverse, covering a broad spectrum of the most timely and significant advances in brain research and diagnostics. The topics to be covered include:

- **Neurocare** (neonatal EEG, epilepsy (adult/neonatal), EEG/EP diagnostics)
- **Neuromodulation** (neuromodulation, neurorepair, TMS presurgical mapping, TMS in depression, electrical???)
- **Neuroscience** (memory, attention, cognition, brain connectivity, etc.)
- **Sports and movement in neurosciences**
- **Free communication** (neurotechnology, neurofeedback, BCI, neurogaming, multimodality)
- **Dry electrodes** satellite symposium on Wednesday afternoon 18th January

Program language

The scientific program will be in English in order to enable all participants to follow the sessions, gain new knowledge and be able to participate in discussions.

Gathering of experts

The meeting consists of five distinct symposia. Each of symposia will start with a renowned international keynote speaker and is chaired by a leading researcher from the respective field. This year’s program will also host a unique satellite symposium on Dry electrodes covering dry electrode validation and use in clinical practice.
The following keynote speakers and session leaders have confirmed their presence:

- Prof. David Liley
- Dr. Michael Funke
- Dr. Jeroen Dudink
- Prof. Jean-Pascal Lefaucheur
- Prof. John Rothwell
- Dr. Duncan Turner
- Prof. Dr. Andreas Daffertshofer
- Dr. Guy Cheron
- Dr. John Foxe

**Important dates**

- Abstract submission deadline: November 1, 2016
- Early bird registration: September 15, 2016
- Notification of acceptance to speakers: November 15, 2016
- Program announcement: November 29, 2016
- Regular registration: December 15, 2016
- Registration closing day: January 18, 2017

**Registration**

Registration to the Neuromeeting is required. To register please go to [http://ant-neuro.com/neuromeeting2017/registration](http://ant-neuro.com/neuromeeting2017/registration) and fill out the form.

**Discounts on registration**

**Early birds**

Register for the Neuromeeting 2017 before December 15, 2016 and save approximately 13% on entrance fees (350 EUR instead of regular entrance fee of 400 EUR). Early birds also benefit from a special 15% discount on hotel bookings at the meeting venue. See section “Meeting venue” for more information about booking a hotel room.
